

How to Register Using the Group Discount

1. **Apply the Code:** At checkout, enter **GROUP** in the discount code field.
2. **Select Quantity:** Choose the total number of full conference passes you would like to purchase for your group.
3. **Register the First Person & Pay:** Enter the registration details for the first attendee and complete the payment for the entire group order.
 - **Adding Workshops: * Initial Purchase:** Any workshops selected during this initial checkout will apply **only to the first attendee**. Your total will include the discounted group passes plus any workshops chosen for that attendee.
 - **Register Remaining Attendees:** After payment is completed, you will receive an email containing complimentary registration codes for the remaining group passes.
 - **Adding Workshops for Other Attendees:** When the other members of your group use their codes to register, they can select their own workshops and pay for them individually at that time.

Important: Workshop registrations are tied to individual attendees and are not automatically included for all members of the group.
